Work Experience

Front-End Web Developer/Designer

March 2016 - Current

Canadian Council on Africa

- Designed high-quality brochures and web banners using InDesign for the company's International business conference.
- Designed various wireframes/layout for the company's updated website for both mobile and desktop platforms using Sketch.
- Developed the front-end of the website using the wireframes and coded webpages.

Graphic Designer

Sept 2014 - Jan 2015

The Fidget Start-up, Kitchener, ON

- Designed projects within established brand standards and style guide for print and digital media.
- Developed potential logos, concepts / products from initial idea to final product.

Projects

Abeeneshuthayan.ca

Portfolio Website

Aug 2016

- Designed and developed a website to showcase my portfolio and the various skills required to develop one.
- Developed the animations of the website using an animation tool called Tween Lite from Greensock.

UX Design Project

Mar 2016

- Designed the interface of mobile apps by creating a mock-up with Balsamiq, created the interface in detail using Sketch and developed an interactive prototype using Invision.
- NESHTV: This mobile app design filters various television shows and movies with simple genres and provides information on the ratings, trailers and Netflix availability.
- NESHTemplates: Designed different creative interfaces of a start menu that provides the user the choice to either login or signup.

SQL/Filemaker Student Database Analysis Project

Oct 2015

University of Waterloo

- Used the University's theoretical data regarding students and selectively aggregated data using SQL to identify the students with specific characteristics.
- Added macro embedded buttons for frequently used filters in Filemaker for a smoother user experience.
